- [ ] **Review your application**

Eligibility Requirements

Bachelors degree

A valid bachelor's degree (4 years) from a recognized university in any one of the following:

- **Engineering:** Four-year BTech/BE with a foundation in maths, statistics, and programming.
- **Sciences/Economics:** Four-year bachelor's, or three-year bachelor's plus PG diploma (equivalent to 40 credits) / master's, with maths, statistics, and programming.
- **Final-year students** completing their undergraduate degree by summer 2027.

Work Experience

Applicants with full-time professional experience in technology-related roles are welcome to apply.

Relevant Education

Prior exposure to subjects such as linear algebra, probability, programming (e.g., Python, R, C++) and machine learning fundamentals - whether through college coursework, certifications or industry experience.

Demonstrate passion for AI through projects, hackathons or self-initiated work will be given preference.

Strong academic rigor, reflected in relevant coursework, projects, test scores, or research work.

Please detail relevant experience in your CV/resume and statement of purpose.

Admissions Process

Step 1	Step 2	Step 3	Step 4
			
Application review	Telephonic Screening	Admissions interview	Admission Decision

Step 1: Comprehensive application review

All submitted applications are evaluated on both academic and non-academic factors. Based on the Step 1 review, applicants are shortlisted for the telephonic screening.

Step 2: Telephonic Screening

A brief call from the Master of Science in AI team to assess your motivation and interest in the program.

Step 3: Appear for an admissions interview

The assessment, led by faculty and Plaksha leadership, includes problem-solving and coding exercises, case discussions, and technical questions aligned with the program's focus areas. The assessment also evaluates the candidate's attitude, leadership potential, and overall alignment with Plaksha's values.

Step 4: Get an admission decision

We take a holistic view of your application and assessment, bringing together all aspects of your profile to arrive at the final admissions decision.

Notes for Applicants

- Applicants can apply only once during the admissions cycle.
- Early applications are encouraged.
- The online application form is available on the official website, free of charge.
- Applicants must upload copies of their official transcripts for test scores (if submitted) and academic transcripts as part of the application process.
- The admissions committee will make a decision, which will be communicated to the applicant at the conclusion of the process.
- All decisions made by the Admissions Committee will be considered final.
